

CAPABILITIES STATEMENT

CAGE: | DUNS: 080700143 | NAICS: 221114 - Solar Electric Power Generation

ABOUT US

We develop utility scale solar systems for utilities, co-ops and municipalities.

We use cost effective procurement methods too successfully navigate the interconnection phase and build optimal solar energy plants.

As the energy sector grows, our relationship with Govt. agencies, Utility commissions and Public consumers is vital to our long term success in the energy market

DIFFERENTIATORS

- Grassroots approach to off taker engagement
- Strong EPC partnerships

CORPORATE DATA

Dedrick J Jackson, Founder

djj@bfaenergy.com

(865) 771-3662

Jose L Montemayor, COO

jlm@bfaenergy.com

(915) 781-4869

<https://bfaenergy.com>

CORE COMPETENCIES

- Land origination
- GIS Mapping
- Off-taker engagement
- PPA execution
- System Design
- Engineering
- Energy Analytics
- GIS mapping
- Customer Service
- Procurement

PAST PERFORMANCE
